Behaviour Support Services

Early Intensive Behaviour Intervention (EIBI)

Children (0-6 years)

Supporting children with autism and/or an intellectual disability.

Core Elements of our EIBI Program

- Family-centred approach
- Assessment and programming guided by the science of applied behaviour analysis (ABA)
- Comprehensive Behaviour Plan of Intervention that includes all developmental domains:
 - Communication
 - Academics
 - Social and play skills
 - Physical development (motor skills)
 - Independence
 - Life skills
- Training and support for behaviour interventionists and parents
- Ongoing data analysis to monitor progress
- Monthly team meetings
- Assistance with transition to pre-school and kindergarten

Each early intervention program is developed and overseen by a Registered Autism Service Provider (RASP), many of whom are Board Certified Behaviour Analysts.
